Bilateral Meetings

- Monday 14:30 - 18:00

Description

INESC Microsistemas e Nanotecnologias is a private, non-profit Research and Development Institute created in January, 2002 from the former Solid State Technology group of INESC. Since January 2008, INESC MN belongs to the Associated Laboratory - Institute of Nanoscience and Nanotechnology (IN) - to work in the emerging fields of Nanotechnology, BioNanotechnology and Nanosciences.

Organization Type

University / R&D institution / Accelerator,

Offer & Request

Services and Investment

INESC Microsistemas e Nanotecnologias provides services for the use of INESC MN infrastructure by research groups and companies both Portuguese and international. These services are provided in consultation with INESC MN staff and pricing is dependent on the type of client and the service to be provided.

Magnomics S.A. an INESC-MN' spin-off focused on delivering the next generation of lab-on-chip molecular diagnostic devices is looking for investment

for the development of a portable solution for bacterial detection, identification and antibiotic resistance profiling, making use of a single, small fluid sample.

Cooperation Offered

1. Outsourcing co-operation
2. Technical co-operation

Cooperation Requested

1. Investment/Financing
